Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner again informed the applicant of the poor quality of facsimile transmissions received by the Office and particularly those associated with the amendment submitted June 27, 2005 (note page 5 of the Office Action mailed March 1, 2005). The examiner suggested the applicant resubmit a clean copy of the June 27th amendment either by refaxing the amendment using a different machine, or by mail, to avoid transcribing the numerous resultant typographical errors to the published patent.
